US 41 construction update for WIS 29 and Mason Street interchanges

Businesses invited to hear construction details for 2011

(Green Bay) The Wisconsin Department of Transportation (WisDOT) Northeast Region office in Green Bay is holding a business group meeting for business owners near the WIS 29 (Shawano Avenue) and Mason Street interchanges in Brown County. The meeting is being held Wednesday, December 8 from 7:30 a.m. to 9:30 a.m. at the Rock Garden Conference Center, 1951 Bond Street, Green Bay. A presentation begins at 7:45 a.m.

The primary purpose of the meeting is to continue communication with the business community and provide firsthand information regarding construction scheduled in 2011 in the WIS 29 and Mason Street interchange areas, as part of the US 41 Project.

Next spring WisDOT begins a number of projects that will affect traffic within the two interchanges. Improvements include construction of a multilane roundabout at the intersection of Shawano Avenue and Taylor Street; reconstruction of Lambeau Street; construction of the future County RK with a roundabout installed at the intersection of County RK and County J; and construction of an underpass to carry County J traffic under WIS 29.

Business owners are encouraged to attend to learn about upcoming construction schedules, potential impacts to their business and resources available to help the business community connect with customers during construction.

ABOUT THE US 41 PROJECT

WisDOT is initiating expansion and improvement of 31 miles of US 41 in Brown and Winnebago counties. The project will include road expansion to accommodate increased traffic volume, up to 44 new roundabouts, improved interchanges and expansion of the Lake Butte des Morts Causeway. Current construction information and details about the project found at www.US41wisconsin.gov or by calling the project hotline: (920) 492-4120.
